A revolutionary DIY system

The 3M™ Paint Defender System is an innovative, affordable three-step process that **protects vehicles from rocks, bugs, sand, scratches, dings and more** for at least one year. The product sprays on as a liquid and then turns into a clear, durable film.

The system consists of three parts:

1. **3M™ Paint Defender Spray Film** PN90000 (includes one 17.5-ounce spray can and one 1-ounce packet of wax)
2. **3M™ Paint Defender Application Kit** PN90200 (includes plastic sheeting and masking tape)
3. **3M™ Paint Defender Spray Trigger** PN90201

These products are sold separately, however all three are recommended to get the job done right. The number of spray cans needed depends on the surface to be protected.
