3M™ Universal and Coarse Anti-Slip Tapes

A simple way to prevent slips and trips

Introducing 3M™ Universal and Coarse Anti-Slip Tapes

- Impressive durability for long life
- Resistant to abrasion
- Self-adhesive backing for quick and easy application
- Effective adherence to clean, dry surfaces without wrinkling, curling, tearing, shrinking or lifting
- Available in a variety of sizes colours and textures

For a better grip on slippery surfaces

Slips and trips are the most common cause of major injuries to employees at work and represent a substantial cost to employers each year. Most occur in wet, oily or dirty conditions on both level surfaces and ramps. The solution in many cases is simple and cost-effective.

3M™ Universal and Coarse Anti-Slip Tapes are designed to help prevent slips and trips in the workplace by providing necessary grip on slippery surfaces. With their self-adhesive backing they are quick and easy to apply, offering a cost-effective and durable solution for the application.

3M™ Universal Anti-Slip Tape

3M Universal Anti-Slip Tape is a high friction, mineral-coated, slip resistant material adhered by a durable resin to a pressure-sensitive adhesive backed plastic film.

It can be used on a wide variety of surfaces including concrete (painted or primed), resilient tile, metal and porous surfaces if primed. From ramps and heavy traffic corridors in hospitals, to fire escapes and loading bays in factories; from walk-in freezers and food areas in restaurant kitchens, to ladders and stairs in commercial premises, 3M Universal Anti-Slip Tape offers a simple and cost-effective solution to better grip on slippery surfaces.

3M™ Coarse Anti-Slip Tape

3M Coarse Anti-Slip Tape consists of extra large mineral particles with a durable construction that provides additional slip resistance in extreme conditions.

It can be used on a wide variety of surfaces including concrete (painted or primed), resilient tile, metal and porous surfaces if primed. 3M Coarse Anti-Slip Tape has particular applicability in oily and wet areas - areas such as ramps, loading docks and platforms; in machine shops, auto-repair shops and garages. In these oily and wet conditions 3M Coarse Anti-Slip Tape offers a simple and cost-effective solution to better grip on slippery surfaces.

A choice of tapes

Universal:

Black rolls: 25mm, 50mm, 100mm, and 150mm widths by 20m length

Yellow rolls: 50mm width by 20m length

Yellow/black rolls: 50mm width by 20m length

Coarse:

Black rolls: 25mm, 50mm, 100mm widths by 20m length
